Dear Mr Kinds and Ms Rudenko,

Hereby I would like to thank the ControlPay company for its contributions to the improvement of the social climate in Ukraine. Corporate social responsibility is a multifaceted concept, the exact meaning of which varies across different countries. The amount of companies that is trying to give back to society is steadily increasing. I am grateful and proud that ControlPay and other Dutch companies actively participate in this process, both in The Netherlands and abroad.

ControlPay is known in Ukraine as an international driving force in freight auditing. Furthermore, ControlPay has a good reputation as a reliable partner that is open for initiatives, aimed at making this world a better place to live in. I appreciate your efforts, through the TulSun Foundation, to support Ukrainian children in need.

ControlPay is setting a good example, proving that successful modern corporations do not just seek profit, but also bring benefits to society.

I wish you all the best in your future endeavours.

Your sincerely,

Jennes de Mol  
Ambassador of the Kingdom of the Netherlands to Ukraine
